

Anaphylaxis

Pediatric Packages

Pediatric Packages (PedsPacs) are intended as a step-by-step guide for managing critically ill children. By necessity, the PedsPacs sometimes make judgments about things (such as specific courses of treatment or pediatric doses) that are unclear from the evidence alone, based on the consensus of pediatric experts.

The Anaphylaxis resources include: Bottom Line Recommendations, Algorithm, Order Set, and Pocket Card. The development of these resources involved a rigorous and iterative process, bringing together experts from a variety of specialties (nursing, simulation, emergency medicine, critical care, and pharmacy). These resources use the best available knowledge at the time of publication. However, healthcare professionals should continue to use their own judgment and take into consideration context, resources and other relevant factors. The TREKK Network is not liable for any damages, claims, liabilities, costs or obligations arising from the use of this document including loss or damages arising from any claims made by a third party. The TREKK Network also assumes no responsibility or liability for changes made to this document without its consent. To view the resources and for a list of the evidence that informed the creation of these resources please visit our website [here](#).

Development Team

Thank you to the following **content experts** who led the development of the Anaphylaxis Algorithm and accompanying tools:

Waleed Alqurashi, MD, MSc, FAAP, FRCPC, Assistant Professor, [University of Ottawa](#); Emergency Medicine Pediatrician, Children's Hospital of Eastern Ontario ([CHEO](#)); Scientist, [CHEO Research Institute](#).

Anne Ellis MD, MSc, FRCP(C), FAAAAI, Director, Allergy Research Unit/Environmental Exposure Unit, [Kingston Health Sciences Centre](#), KGH site; Professor, Department of Medicine, School of Medicine, and Department of Biomedical and Molecular Sciences, [Queen's University](#); Chair, Allergy & Immunology, and James H. Day Chair in Allergic Diseases and Allergy Research, Faculty of Health Sciences, [Queen's University](#).

Thank you to the [TREKK Editorial Committee](#), the [PedsPac Development team](#) and the following people who supported the development of these resources:

Pharmacy review: Danica Irwin ([CHEO](#), Ottawa) & Tracy Furst ([HSC](#), Winnipeg)

Pediatric Emergency Medicine review: Mona Jabbour (Co-director TREKK, [CHEO](#), Ottawa)

TREKK Knowledge Brokers: Mary Anne Nurmi, BA, MSc & Mateja Carevic, BA, MA ([University of Manitoba](#))

TREKK Editorial Lead: Sarah Reid ([CHEO](#), [University of Ottawa](#))

To see our resource development process please visit our website [here](#).
